the Switchmen's Difficulties.

F ned.

BUFFALO, K. Y., Aug. 24. Chief Arthur, of the Engineers' order has indicated to Mr. Sweeney, of the Swichmen, that it will be impossible for him to attend the proposed conference of executive heads of the labor organizations. This is construed to signify that the engineers will not become involved in the switchmen's difficulties and will not co-operate in a sympathetic strike. From this it may be inferred that Sargent will not order the firemen out. Conductors and telegraphers, it is believed, have little in comm in with the switchmen, and the trainmen are more closely associated with other orders than with the switchmen.

the Miners' Association of Nevada country, California, is arranging to have a small stamp mill in full operation at the World's Fair, as a part of its mineral display.

The Essex institute and museum of Salem, Mass., is stored with treasures in the shape of models of naval architectures and yachts, ocean duels, marine views, and various articles of historic interest. The curator of the institute is planning to prepare for exhibition at the World's Fair, water-color or paste paintings of originals of Salem vessels from 1785 down to the present time, also photographs from the acadeouy and institute of such articles in their collections as would be of interest, having them enlarged to such size as may be found suitable.

Another is being winds to store to the original of reason these sheets have for the mineral of the present time, also photographs from the acadeouy and institute of such articles in their collections as in mark then as I do now, instead of tak ing original tokes over to sell. If I have laid in a supply of back numbers of our comic papers and gone into the junk business.

The only reason these sheets have for the country of the present and they find pretain as whole rate of such articles in their collections as in a smuch then as I do now, instead of tak ing original tokes over to sell. If I have laid in a supply of back numbers of our comic papers and gone into the junk business.

General Von Caprivi.

General Von Caprivi, the present Chancellor of Germany, will probably retire from his high position within a few weeks. This is due altogether to the difference of opin.on existing between the Emperor and the Chaucellor on what is known as "The Biemarck Crisis." Von Caprivi iras been urging a prosecution of "the Iron Chaucellor" for his recent anti-government uterances and Emperor William has refused to take steps in that direction. Von Caprivi mon his spurs during the Franco-Prussian war and afres the death of Emperors William and Frederick, had much to do with the reorganization of the army on its present massive footing. He succeeded Bismarck as Chancellor of the Empire about three years ago Von Caprivi recently resigned from the Prussian ministry owing to a difference of opinion on educational legislation. In sppearance he greatly resembles Bismarck, although fully seven or eight years his junior.

> The convention opened at 2.30 P. M. vesterday afternoon in the auditorium of the First Methodist church on Pine street. The seats were filled. It was an inspiring sight to see the big congregation of Christian Endeavorers from all parts of the State gathered in this magner, and one could not but be impressed with the movement which the audience represented-both with its size and spirit.

The decorations were very appropriate and most beautiful. As the visitor entered the anta room he saw festoons of page and prettily arranged potted plants | In the church auditorism attention was first at-tracted to the pulpit. In its rear the wall was draped with the American ensign with the C. E. monogram in the center. A flag over the pulpit and a handsome array of potted plants completed the decora-tions here. On the sides of the church were flowers. Across the rear and in front of the organ loft were stretched interlaced red, white and blue gruze ma terial with very nice effect, and above it is floral letters were the words "For Christ the Christian Endeavor motto for this Mrs. Roscoe Garland and child returned year, "Holding Forth the Words of Life", banners. The decorating was done by the

With cordial

regards to everyone,
Yours truly
F. E. CLARK. A special prayer for Rev. and Mrs. Clark on their journey around the world was offered by Rev. R. W. Brokaw, of Springfield, Mass. Then came the official reports. President Foss gave his first and showed that the past was a year from which much succuragement might be drawn. It has been a year of growth as the secretary's report which came next 6 30 A.M Prayer meeting Leader, Rev. made clear. At the last convention in J. F. Tilton, Belfast. made clear. At the last convention in Saco there were reported 293 societies. with 7,436 active and 3,768 associate members with a total of 12,309. To-day there are reported 424 societies, 9,014 active and 4,816 associate members, a total (including the number of juntor societies, and the estimated membership of 65 societies) of

This shows a gain of 131 societies with 4,005 members. In addition to this there are probably scores, perhaps bundreds of 12 00 ocieties unreported. These figures include 41 junior organizations with 1,184 mem pers There has been added to the aburch during the year 641 members from the societies. The denominations now represented are: Congregational, 155 societies, Baptist; 82; Methodist, 10; Free Baptist, 16, 3 30 Presbyterian, 2; Disciples of Christ. 2. the pushing of work in the junior department, and suggested the choosing of a for the attendance of the Maine delega tion at the Montreal convention next year and the choosing of one to submit to the executive committee a design for a State banner and badge. He also appealed for the financial assistance of all who could afford it in the carrying on of the State Union's work The treasurer's report showed a balance,

including money on hand and uncollected pledges, of \$99.65. "What a Wonderful Savior is Jesus, 845

was song after the reports in thankagiving for their favorable nature Presulent Fose then urged the necessity of registering as the delegates, and Rev. Mr Lind say, of Portland, then spoke of the prosed excursion to Bar Harbor Further action on the matter was deferred until the evening session Rev F M Lamb, of New York, then presented a finely ren dered solo, which was heartly amplauded Rev L. C Townsend, D D of Boston Iniversity, was then introduced, to deliver the convention sermon He took as his text the 14th chapter of Komana He gave as his topic, 'To what extent may the members of the societies here represented, consistently indulge in the popular amusements of the day ' He said that while we are discussing this subject we must be charitable, it being reasonable and also according to the scripture, which was quoted. Any other spirit is not christian. Denunciation of popular amusements does no good. The princi-ple of charity should be used on both

sides of the question. There is considerable difficuly n drawing distinct line between popular amusements that are allowed, and those that are thought ill of. What is the essential difference, is asked, between chess, theckers, cards, croquet and other games There are a few discriminations that commend themselves The distinction between games of chance and games of skilis clear, so also is that between amuse ments that are healthful and those that are not. The ball room is not a healthy pastime. Certain amusements are limited to time and place, they being comparatively harmless, but without limitation do hurt. No Christian Endeavorer can in dulge in questionable pastimes when there

is a chance of evil influence over others Dr. Townsend then treated in turn cards, dancing and theatre going, showing the arguments made in favor of each. and also telling of the evils resulting from indulgence in any of them, injury to health, waste of time that could ering of morality, and others, and in saving, in view of these things, of the the pastimes and of the sentiment against the dance and the theatre, especially if something can be pointed out that is betterend nobler? He showed how other amusements were preferable and closed his powerful appeal by a reference to the object of life, saying that to make the most and the best of it was what was pleaded for.

A cable despatch to tare New York Hereld announces the suicide at Moriey's Hotel, London, Saturday night, of General Prince, aged eiggty-three years, a retired American army officer. It is possible that the man referred to was Brigadier General Henry Prince. If this be so he was born in 1811, at Eastport, and was one of the most gallant officens of the Mexican war and the war of the Rebellion. He graduated at West Point in 1835 and was rapidly promoted for bravery. He was retired with a pension of \$4,000 per year, and was considered quits wealthy, so money troubles could not have driven him to suicide. He went to England shortly after his retirement and had been living there on the interest of his money.

Among the funniest happenings at 0:
Crchard this summer, is the number of sets of false teeth that have teen lost by people in bathing. The loss of a piate of false molars by some one is an every day occurrence, and at every low tide people may be seen walking slowly slong the beach and poking the said with cause in a generally vain search for their lost masticators.

At this sesson every year, some new summer resorts are started on Maine lelands, or unoccupied land at established pleasure grounds is cut up into lots and sold. One of the most successful transactions of this kind cocurred at York Beach, last week. Weely scres of land there had been divided up into seventy-one lots and a hotel site and all were put at auction, and every lot sold. Those next to the sea wall brought big prices, some of them selling for a thousand dollars, and the corner lots also brought good figures. The lots fartier inland were bought at low figures for speculation. bought at low figures for speculation. The both site was bought by Hildreth, proprietor of the Atlante House, at York Beach. The total receipts from the sale were \$19,000. It is said that several cottages will go up at once It strikes us as remarkable to hear of

the wonderful record fix our ng. enjoyed by Bettan's Infallible File Salve; it cures every form of this troubleseme silment. If no to be had of your druggist send 50 cents to the Winkelmann & Brown Drug Co., Baltimore, Md.
